

TO WHOM IT MAY CONCERN

OZONE DEPLETING POTENTIAL

This is confirm that Zhejiang Ask New Insulation Materials Co., Ltd. has undertaken an audit of our calcium silicate and perlite insulation materials and processes referencing the US EPA List of Ozone Depleting Substances (Class 1 and Class 2) and determined that, to the best of our knowledge, no Ozone Depleting Substances are involved in either the manufacture or composition of these products.

Zhejiang Ask New Insulation Materials Co., Ltd. has an Ozone Depleting Potential of zero.

Thomas Qiu
